

1600/1700 SERIES - PRIVATE DELIVERY

Horizontal Mailboxes

Available in front-loading (1600 series) or rear-loading (1700 series) units, each horizontal module provides many compartments in a compact space. For private delivery only, with no min/max mounting height requirement (not restrained by Postal requirements).

Front & Rear-Loading Options

1600 Series mailboxes are front-loading. 1700 Series mailboxes are rear-loading with one additional mailbox compartment and an exposed back for easy distribution, so keep in mind during planning that additional space will be necessary for a secure room behind the installation. Access to the mail and package room may be restricted and easily accessed using a key keeper.

To order rear-loading 1700 Series mailbox, replace first two digits of 1600 model number below with 17 (example: 170073A).

NOTE: USPS requires upgrade to current standards when any remodel or renovation occurs to the property. Any remodel big or small should drive an upgrade to CBU or STD-4C Mailboxes per USPS Guidance.

Horizontal mailboxes should be installed indoors and protected from direct weather exposure. Florence Corporation is not responsible for damage caused by weather conditions.
